Imprint methods for branding products include Emboss / Deboss, Laser Engraving, Screen Printing, DTF / Sublimation Print (Heat Transfer), UV Print & Embroidery. These methods are used to apply logos or designs onto items like Leather Products, Fabric made products, Metal Products, Plastic Products, Wooden and accessories, with techniques chosen based on material, cost, design & time complexity.

An imprint is a mark, impression, or indentation left on a surface by applying above said different techniques. It creates a lasting effect on the Products / Merchandise.

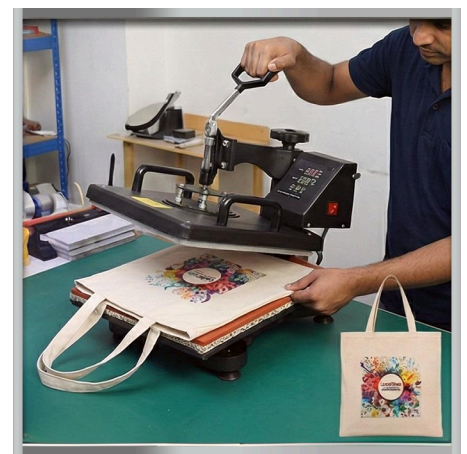

We have IN-HOUSE Facilities for Manufacturing & All Kinds of Branding under one Roof. We can Customize & Personalise the Products as per customer's requirements.
